

There's a Pipe for That

Do you know what happens after you flush the toilet? The wastewater goes down into a pipe that brings it to the treatment plant where it will be cleaned.

But that's not the only thing traveling through pipes beneath your feet! Use the key and the letters on the pipes to color them in based on what they're carrying.

KEY

(G)reen.... Wastewater
(B)lue ..... Drinking Water
(P)urple... Recycled Water
(Y)ellow... Gas
(R)ed ..... Power
